## Heaters for Pools and Spas

by Sta-Rite

## Get that warm-all-over feeling

Sure, a beautiful pool looks inviting, but its cold water can keep you high and dry. Which is why it pays to have a Max-E-Therm heater. After all, when the water's just right, you maximize the enjoyment of your pool experience. The fast-heating Max-E-Therm heater makes your pool irresistible on cool nights. It also allows you to extend your pool season.

Unlike other heaters, the Max-E-Therm heater offers you the latest advances from Sta-Rite<sup>®</sup>: a rustproof exterior, smart electronics and increased energy efficiency.

Whether you're looking for quiet relaxation or wild fun, you'll always enjoy your pool in the warm comfort of a Max-E-Therm heater.

- High efficiency rating makes the Max-E-Therm heater extremely economical to operate.

- Specially designed fueling and ignition process permits faster warming of your pool and spa.
- Easy-to-read, conveniently positioned control panel is simple to program.
- Dura-Glas<sup>®</sup> Housing will not corrode and stands tough against harsh weather.

If you want that warm-all-over feeling, choose the Sta-Rite Max-E-Therm heater. It's a better choice for a host of reasons.

## An Eco Select<sup>®</sup> Brand Product

The Eco Select brand identifies our "greenest" and most efficient equipment choices. Max-E-Therm heaters offer best-in-class energy efficiency.\* Plus, they are certified for low NO<sub>x</sub> emissions, making them eco-friendly favorites.

# Max-E-Therm<sup>®</sup> Heaters for Pools and Spas

**The heat is on**  
Designed for faster heat-ups—why wait to enjoy that soothing swim?

**A view from the top**  
Top-mounted control panel has a large format digital display and 360-degree rotation in any direction for easy viewing

**Self diagnostics**  
Control panel indicator lights pinpoint heater or system conditions, which can save money through faster troubleshooting (if required)

**Easy on the environment**  
Certified for low NO<sub>x</sub> emissions and outperforms industry standards for air pollution exhaust

**Tough exterior**  
Heater enclosure is made of Dura-Glas<sup>®</sup>, an exclusive Sta-Rite<sup>®</sup> thermoplastic resin that handles the heat and weathers the elements

## This heater is hot!

Pool professionals will tell you the Max-E-Therm Heater is an industry favorite for heating pools and spas. Its sleek, contemporary styling offers pool owners an easy choice over the traditional-style heaters—those plain-looking, clunky metal boxes just waiting for the rust to set in.

**The perfect mix**  
Is the toe test telling you the water could be a bit warmer? No problem. The Max-E-Therm heater can quickly warm your pool or spa. A perfectly balanced mixture of fuel and air is ignited in the combustion chamber, which produces the optimal temperature for faster heating.

### Rated first in its class!

If operating cost was holding you back on a heater, you can proceed with confidence—Max-E-Therm heaters have a best-in-class efficiency\* rating.

\*Standard and ASME Copper Heat Exchangers 84% efficient.  
Heavy-Duty (HD) Cupro-Nickel Heat Exchangers 82% efficient.

**Simply Smarter.**
