

TRADITIONAL UMBRELLA COMPATIBILITY MATRIX

Pairing an Essential, Premier, or Element umbrella with a side table or base that best suits your space is a breeze.

- TABLE USE:** Indicates the base is suitable for use beneath a table. It is not recommended as a free-standing base option.
- FREE-STANDING:** Indicates the base is recommended as a free-standing option, but also suitable for use beneath a table if the table provides enough clearance to safely sit above the base on a flat surface. 18" stems should always be used when in this application.
- 1.5"/38MM STEM:** Indicates the base can accommodate a 1.5"/38mm diameter pole
- 2"/50MM STEM:** Indicates the base can accommodate a 2"/50mm diameter pole

NOTE: 18" stems are recommended for free-standing applications. Ledge Lounger will not recommend a free-standing application with a shorter stem. If using your umbrella in a vinyl pool, please notify your sales representative.
